Table of Contents

i. Overview.....	3
ii. Target Audience.....	3
iii. Test Report.....	3

1) Overview:

Test Cases document contains all the test cases which are to be given as inputs to the system for testing the software functionalities as according to the requirements. We have listed test cases according to various test scenarios created while performing various functionalities. In this document test report we have included actual output and the status of the test case indicating if it matches with the expected output or not.

2) Target Audience:

The target audience for this document is:

- Coders/Developers
- Testers

3) Test Case Report:

Test Case ID-1: Login and Register

Test Case ID	Description	Prerequisite	Expected Output	Actual Output	Test Results
1.1	Entering correct Email Id and password	User is a registered user and has a connection with the server established	Successful Login, User gets redirected to Home Page	Successful Login, User gets redirected to Home Page	Pass

1.2	Entering correct Email Id but incorrect password	User is a registered user and has a connection with the server established	Login failure, Message of incorrect username or password displayed	Login failure, Message of incorrect username or password displayed	Pass
1.3	Entering incorrect Email Id but correct password	User is a registered user and has a connection with the server established	Login failure, Message of incorrect username or password displayed	Login failure, Message of incorrect username or password displayed	Pass
1.4	Entering incorrect Email Id and incorrect password	User is a registered user and has a connection with the server established	Login failure, Message of incorrect username or password displayed	Login failure, Message of incorrect username or password displayed	Pass
1.6	User clicks on Login button	User has internet connection established. User is not a registered user. User has entered username and password provided by admin	The system will check the Email ID and password credentials.	The system will check the Email ID and password credentials.	Pass
